

it's
● about
time!

It's about time Canadians had more health-care options. About time we cut wait times. About time that our health-care teams include more nurse practitioners.

With advanced nursing degrees and extra training and experience, nurse practitioners are helping Canadians get more access to quality health care. In community clinics, QuickCare Clinics, nursing homes, hospitals and emergency departments, nurse practitioners diagnose and manage illnesses, order and interpret tests, write prescriptions and a whole lot more.

Go to npsnow.ca to learn more and to find out where NPs are in your area.
